Operating Systems

OS/400, IBM S/36 Environment, DOS, Windows.

EXPERIENCE

Workscape, Inc., Marlboro, MA

02/1998 – Present

Independent Computer Consultant

- Maintain RPG programs on a DEC Vax for a pension administration system per clients request.
- Complete redesign and development of pension administration software for new hardware/software platform (Oracle, PL/SQL) and for Y2K.
- Developed a postscript program to create bar charts to be merged to a word document. Extensive experience with mail merges for various clients of Workscape and then creating PDF's using Adobe.
- Maintain current software for various clients of Workscape in PL/SQL using an oracle database.
- Interface oracle database to web based benefit enrollment administration application to allow employees to choose current year benefits. After enrollment period benefits chosen are transmitted to various health vendors (Aetna, Cigna, Delta Dental and VSP).
- Working in a diverse, fast paced application solution environment.
- Writing ad-hoc SQL queries for reporting and data extracts for various clients.
- Write SQL*Loader control files for uploading legacy data to oracle database tables.
- Designed and developed many store packages, procedures, and functions for multiple reports and web applications.

Comtran, Inc., Whitensville, MA

02/1998 – Present

Independent Computer Consultant

- Setup a small network for 25 workstations.
- Create a new application to allow orders to be re-priced based on daily price of copper.
- Convert program described files to external files on AS/400. Utilized sub files on AS/400 to rewrite online programs from S/36 S/D specs to new AS/400 DDS specs.
- Provide support for P.C., AS/400 network, and Email.

Market Forge, Inc., Everett, MA

06/1998 – Present

Independent Computer Consultant

- Designed and developed an application to track shop floor orders, consisting of a bar code system to track where the order is at any given time.
- Modify software package (MOVEX) per client's request.
- Designed and developed an application to track physical inventory and interface results with MOVEX Inventory software.
- Create interface between United Parcel Service and Federal Express computers to AS/400 (via ODBC), to retrieve shipping charges to attach to customer invoices.
- Create new programs to report sales analysis by region and territory, which are automatically emailed to individual sales managers.
- Convert labor & time application from S/36 to S/36 Environment on AS/400.

Flynn Insurance Agency, Charlestown, MA

02/1999 - Present

Independent Computer Consultant

- Designed and developed an application to track state employee deductions to individual insurance policy numbers.
- Purchased and installed AS/400. Installed PTF's. Setup workstations via TCP/IP to P.C. network.
- Converted S/36 to AS/400. Older applications converted to S/36 Environment on AS/400.
- Convert customized software to Native AS/400. Provide support for AS/400.

Strawberries, Inc., Milford, MA

02/1998 – 02/1999

Independent Computer Consultant

- Created interface program to be used with symbol technologies RF devices to track receiving of product.
- Designed and developed an Email application to interact with retail stores computers to the home office AS/400.
- Created new communication software to download prices changes to retail stores computers.

Staples, Inc., Framingham, MA

05/1995 – 02/1999

Independent Computer Consultant

- Responsible for major mail order entry application project, consisting of duplicating and modifying U.S. software to handle Canadian call center business.
- Created UPS tracking labels, for mail order business, which interface EDI transactions from UPS to allow call center representatives to track packages.
- Developed and modified software application to authorize customer credit cards online with the bank via communications program.
- Experience working with multiple AS/400's, using remote data/output queues and DDM.

ATT Capital Corporation, Framingham, MA

10/1992 – 04/1994

Independent Computer Consultant

- Program new applications and maintained existing software for a leasing service company, which consisted of database design, creation, maintenance, inquiry and reporting for sales.

Yankee Food Distributors, Ayer, MA

01/1990 – 09/1992

Independent Computer Consultant

- Convert from S/34 to AS/400, which consisted of installing and setting up a new AS/400. Rewrote software for a new database structure on AS/400.
- Maintained various applications such as Order Entry, A/P, A/R, and Inventory control.
- Redesigned software to handle multiple Companies.

Honey Farms, Worcester, MA

07/1989 – 01/1990

Independent Computer Consultant

- Database design, creation, maintenance, inquiry and reporting for instant lottery sales tickets, which controlled inventory, sales, and commissions.

EDUCATION**New Hampshire College, Manchester, NH**

Courses Studied: RPG II, COBOL, Advance Basic, Pascal, and Fortran
